

## European Vitreo Retinal Society

*A Certain Philosophy*

Dear Friends,

I hope you are all well.

The dust has hardly settled on our 17th Annual Meeting in Florence and it is already time to look ahead to new plans and new commitments.

But, before we turn the page on our last meeting, I would like to thank all those who have taken part in the event.

Some of you braved very long trips to be here with us and to all goes my deep appreciation and a heartfelt "Thank You".

Your presence has contributed to one of the most successful events EVRS has had so far.

A total of over 600 attendees from 64 Countries were present.

For the first time in our history we were also able to get European CME points (EACCME) which will be useful to us all.

This has also given us the opportunity to assess the quality of the meeting through the questionnaire which the European Union of Medical Specialists required us to provide.

We were delighted to see that our Members were overwhelmingly satisfied with the format and the contents of the event.

Needless to say, this will only make us work harder to try and make each meeting better than the previous one.

The next meeting, our 18th Annual Meeting, will be held in:

## **Prague**

from August 30th to September 2nd 2018.

The theme of the event will be:

### **Striving for Excellence in Medical and Surgical Retina**

I am sure there will be a very active participation from you all.

We will do our part.

We will do everything in our power to make this event as satisfying as possible for you all.

Please visit our website and get your registration in as soon as possible:

<http://www.evrs.eu/meetings/>

I will get back to you periodically to keep you posted not only on the meeting but on all that is going on within our Society.

All the best for now.

Giampaolo Gini
